FRIENDS OF BALLONA WETLANDS

Our weather is constantly changing!
From morning to night, the temperature goes up and down. Day to day there may be no clouds, some clouds or rain! Be a scientist who studies the weather for a week to see what changes you can find. After one week, describe patterns you observed and how you felt about the weather during your week of study.

| $\left(\begin{array}{c} D \\ A \\ Y \\ \end{array}\right.$ | $\begin{aligned} & /{ }_{\text {DATE }} \\ & \\ & \\ & \text { TIME } \\ & \text { AM } \\ & \text { PM } \end{aligned}$ | TEMPERATURE | DESCRIPTION (SUNNY/CLOUDY/WINDY) | $\begin{aligned} & \because \\ & \because \\ & \because \\ & \text { LIKE? } \end{aligned}$ |
| :---: | :---: | :---: | :---: | :---: |
